

Complete Evangelism Seminar

Connecting the Pieces in Evangelism for Impact

By Christian Equippers International

A comprehensive evangelistic approach designed to impact your church, with the following strategies:

Inspiration:

To build up each believer's confidence in God's power working through the gospel of Jesus Christ in their individual lives! Leaving the saints with the belief, "That I can be used mightily by God"

Practical:

To give practical steps how to complete the evangelism process. This process encourages new Christians to become active, reproducing warriors in God's army.

Giving detailed, yet simple, suggestions on how we can become effective witnesses. The Complete Evangelism Course materials and booklets are invaluable in helping to equip the saints for the work of the ministry.

Encouraging:

One of the main goals of this seminar is that we may encourage, edify, and build up the saints. We specifically look for the leading of the Holy Spirit, during sessions and altar calls to speak to the treasure inside people. Calling forth gifting and callings.

Equipping:

Studies have continued to show that 95% of all Christians have never led a person to Jesus Christ. It is our goal "to equip the saints for the work of the ministry" Ephesians 4:12. The church must be equipped as the army of God, to impact our communities, as ministers of reconciliation

Impartation:

Paul exhorts us of the importance of stirring up the gifts with in people, with the laying on of hands. Therefore I remind you to stir up the gift of God which is in you through the laying on of my hands. '2 Tim 1:6 We take seriously the importance of the Holy Spirit working with us, to accomplish HIS goals for your church and people. Every session is completed with an altar call, giving an opportunity for the Holy Spirit to move.
